企业简介 COMPANY PROFILE

公司创建于1986年，专注铜加工产业三十六年，是全球领先的铜合金及先进材料制造企业。主要产品有铜管、棒、线、板、带、排、电磁线、阀门、磁性材料及黄铜、青铜、紫铜、白铜等高端合金。致力于为新能源汽车、风力发电、光伏能源、电力电气、轨道交通、消费电子等产业发展提供全球一流的产品和服务。

公司立足宁波，放眼世界，在全球有七大生产基地，25家分子公司，8000余名员工。在美国、德国、泰国、日本、韩国等地设立分支机构，业务遍及100多个国家和地区，是众多世界知名企业的长期合作伙伴。

2021年，铜加工产销量达151万吨，营收总额1230亿元。位列中国制造业500强第91位。

Jintian founded in 1986 and focus on copper processing industry for 36 years, which is a global leader in the manufacturing of copper alloys and advanced materials. Our main products include copper tube, rod, wire, plate, strip, busbar, electromagnetic wire, valve, magnetic materials and high-end alloys such as brass, bronze, copper and copper-nickel. We are committed to providing global first-class products and services for the development of new energy vehicles, wind power generation, photovoltaic energy, electric power, rail transit, consumer electronics and other industries.

Jintian based in Ningbo, has seven production bases, 25 subsidiaries and more than 8,000 employees in the world. We have set up subsidiaries in USA, Germany, Thailand, Japan, Korea, etc. Our business covers more than 100 countries and regions, and we are the long-term partner of many world famous enterprises.

In 2021, the total revenue is reaching RMB 123 billion, and ranked 91 in Chinese top 500 manufacturing industries.

技术研发 TECHNOLOGY R&D

以科技创新为主线，公司先后设立了“国家级企业技术中心”、“国家级博士后科研工作站”、“企业院士工作站”及国家实验室认可检测中心；以“全球科技人才为我所用”的理念，聘用德国、日本、韩国等国际高端技术人才和持续深化与中南大学、大连理工大学、中科院宁波材料所、浙江大学等国内著名科研机构的合作；坚持“创新产品、精准开发”的道路，导入并持续优化IPD（集成产品开发）流程，建立了以市场为导向、产学研用紧密结合的企业技术创新体系。

With scientific and technological innovation as the main line, Jintian has set up "National Enterprise Technology Center", "National Postdoctoral Research Station", "Enterprise Academician Workstation" and National Laboratory accredited testing center. With the concept of "global scientific and technological talents contribute to our company", we employ international high-end technical talents from Germany, Japan and Korea, and continue to deepen cooperation with famous domestic scientific research institutions such as CSU, DUT, ZJU and Ningbo Material Institute of CAS. We insist on the road of "innovative products and precisedevelopment", introduce and continuously optimize the IPD (Integrated Product Development) process, and established a market-oriented enterprise technology innovation system with close integration of production, academia, research and application.

- 中国有色金属工业科技进步一等奖2项
Two First-class Awards for China Nonferrous Metal Industry Science & Technology Progress
- 发明专利167项
167 Invention Patents
- 承担国家科技支撑计划项目、国家重点研发计划项目和国家火炬计划项目14项
Undertaken 14 of the National Science and Technology Plan Program, National Key R&D Program and China Torch Program
- 主持（参与）国家、行业标准制修订39项
Participated in 39 Projects of National & Industry Standards Revision
- 获得省级以上科技进步奖12项
12 Science & Technology Progress Awards above the Provincial Level

精益生产 LEAN PRODUCTION

围绕“精益到底，智能为先”的生产理念，全面推行精细化管理，引进多名世界500强企业资深外籍专家，借力国内一流咨询机构，通过推行精益六西格玛、QC活动、全员提案改善等，持续优化工业布局、促进产销协同、提升设备效能、改善员工作业，形成了具有金田特色的精益创新体系，使公司在产品质量、生产成本、劳动效率、现场管理等方面确立了行业领先优势。

Jintian Copper relies on the production concept of "lean production, intelligence first" and comprehensive implementation of lean management. With the help of several senior foreign experts from Fortune 500 companies and the use of domestic first-class consulting institutions, as well as through the implementation of lean six sigma, QC activities and employee proposals, Jintian Copper continues to optimize its industrial layout, promote the coordination of production and sales, improve the efficiency of equipment and improve the work of employees. This forms a lean innovation system with characteristics unique to Jintian. These efforts have enabled the company to establish industry-leading advantages in product quality, production costs, labor efficiency and on-site management.

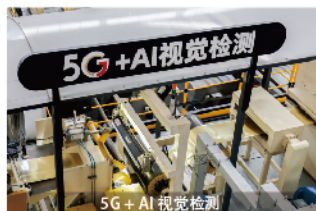

- 全价值流诊断
Total Value Stream Diagnosis

Six Sigma Management System
- 全员提案改善
All Employee Proposal Improvement
- TPM自主保全
TPM Autonomous Maintenance
- TQM全面质量管理
TQM Total Quality Management

智能制造 INTELLIGENT MANUFACTURING

公司坚持将智能化作为企业转型的重要抓手，成立智能制造研究院，先后与BCG、IBM、HP、SAP、Honeywell等国际一流咨询与服务公司合作，以提升企业核心竞争力为目标，依托工业设计理念，以精益体系为基础，深度运用自动化、信息化、数字化、智能化等技术，实现数据驱动的行业智能制造新模式。

Jintian Copper insists on taking intelligence as an important grasp of corporate transformation, establishes the Intelligent Manufacturing Research Institute, and cooperates with BCG, IBM, HP, SAP, Honeywell and other international first-class consulting and service companies. With the goal of improving the core competitiveness of corporates, relying on the concept of industrial design, lean system as the basis, in-depth use of automation, information technology, digitalization, intelligence and other technologies to achieve a new mode of data-driven industry intelligent manufacturing.

公司积极助力新能源汽车、风电、光伏等绿色能源领域的发展，是比亚迪、宁德时代、明阳智能、阳光电源等行业标杆的长期合作伙伴。2021年，公司绿色能源领域铜材销量7.5万吨，磁性材料销量2.5亿元。

Jintian Copper actively contributes to the development of new energy vehicle, wind power, photovoltaic and other green energy fields, and is a long-term partner of BYD, CATL, Mingyang Smart Energy, Sungrow and other industry leverage. In 2021, Jintian sells 75,000 tons of copper material and RMB 250 million of magnetic material in the green energy fields.

- 国家级“绿色示范工厂”

产品介绍 PRODUCT INTRODUCTION

低碳环保铜棒 COPPER ROD

主要产品：低铅环保铜棒、易切削铜棒、耐腐蚀铜棒、硅黄铜、铜镍硅、抛光铜锭
Main Products: Low lead brass rod, leaded brass rod, corrosion-resistant copper rods, silicon brass, copper-nickel-silicon, polished copper ingot, etc.

流体控制
Fluid Control

高端卫浴
High-end Sanitary Ware

智能安防
Intelligent Security

汽车零部件

高导精密铜排 COPPER BUSBAR

主要产品：电力母线排、高精异形形排、防火铜棒、热传导铜基板、高导无氧铜卷排、无氧电工铜线坯

main products: Power busbar, high conductivity precision shaped busbar, fireproof copper busbar, heat conduction copper substrate, high conductivity oxygen-free copper coil busbar, oxygen-free electrical copper wire billet

高精度铜板 COPPER SHEET

主要产品：高强易切削铜板、低铅环保铜板、精雕铜板、模具铜板

Main Products: High strength easy cutting copper sheet, low lead copper sheet, carving copper sheet, mold copper sheet

高导高韧铜线 COPPER WIRE

主要产品：铜绞线、铜并线、镀锡线、铜线杆

Main Products: Copper stranded wire, copper parallel wire, tinned wire, copper rod

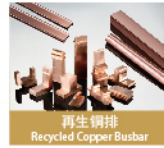

再生电解铜 RECYCLED COPPER CATHODE

主要产品：100%再生电解铜
Main Products: 100% Recycled copper cathode

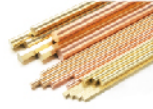

再生铜带
Recycled Copper strip
